UNIVERSITY OF MARYLAND
COLLEGE PARK CAMPUS
1973

THE SUMMER SESSIONS

The Summer Sessions at the University of Maryland make available educational opportunities for undergraduate and graduate students who wish to fulfill degree requirements in the shortest length of time, who wish to take courses that they cannot fit into their academic year schedules, or who need to make up deficiencies or test their ability to do college work. The Summer Sessions also seek to broaden and vary the instructional program by appointing outstanding visiting lecturers and to stimulate students' interests by providing an academic environment which includes a diversified cultural and recreational program. To meet specific educational needs, the Summer Sessions offer workshops and institutes for school personnel and other groups.

The extensive and varied course offerings, lectures, special institutes, and workshops are planned jointly by the Department Chairmen, Deans, and the Administrative Dean for Summer Programs. The courses offered are regular University courses taught by members of the faculty or visiting lecturers of outstanding ability.

The provisions of this publication are not to be regarded as an irrevocable contract between the student and the University of Maryland. Changes are effected from time to time in the general regulations and in the academic requirements. There are established procedures for making changes, procedures which protect the institution's integrity and the individual student's interests and welfare. A curriculum or graduation requirement, when altered, is not made retroactive unless the alteration is to the student's advantage and can be accommodated within the span of years normally required for graduation. When the actions of a student are judged by competent authority, using established procedure, to be detrimental to the interests of the University community, that person may be required to withdraw from the University.

The University of Maryland, in all its branches and divisions, subscribes to a policy of equal educational and employment opportunity for people of every race, creed, ethnic origin and sex.

SUMMER CULTURAL AND RECREATIONAL ACTIVITIES

As an integral part of its summer program, the University offers a Summer Fine Arts Festival and Recreation Program.

The 1973 Summer Fine Arts Festival will offer the Campus and community a series of programs in art, dance, drama, film and music. The 1973 program will have as its central theme "Women In The Arts," and will place special emphasis upon art and drama. Outstanding performers in these media will appear on the College Park Campus. All events are scheduled in the air-conditioned J. Millard Tawes Fine Arts Center. A complete calendar of events will be distributed at registration. The 1973 Festival promises to be a most exciting one and continues the tradition of offering the summer community a culturally enriched atmosphere in which academic studies may be more pleasantly pursued.

The Summer Recreation Program offers a wide variety of leisure time activities for the Campus community. The program includes such activities as recreational swimming, an art workshop, bridge, chess, and bowling tournaments; softball leagues; and a variety of others. The Summer Recreation Office also assists the promotion and coordination of programs offered by other units. Special services such as social hours or special swimming sessions may be requested by any group. Possession of the University of Maryland Summer Activity Card entitles the bearer to all the recreation opportunities of the University as determined by University Policy. A group fee may be charged to cover unusual expenses.

STUDENT HEALTH

The University Infirmary, located on the Campus near the Student Union, provides medical service for students enrolled for summer sessions courses on the College Park Campus. Students who are ill should report promptly to the University Infirmary. Serious emergencies may be reported by phone to Ext. 3444, or if transportation for emergency is needed, call 3555 on campus phone or 454-3555 on a pay phone. Doctors' office hours are: weekdays, 8:00 a.m. to 5:00 p.m.; weekends, 9:00 a.m. to 11:00 a.m. Nurses are on duty 24 hours each day, and doctors are on call for serious conditions after regular hours.

UMporium—UNIVERSITY BOOKSTORE

The UMporium, University Bookstore, is located in the basement of the Student Union Building. Members of the University Community may purchase at reasonable rates textbooks, classroom materials, and many novelties, notions and gifts.

AUTOMOBILE REGISTRATION

All students are required to register their automobiles at the time of registration for classes. A student must bring his operator's license and the state or District of Columbia Automobile registration card containing the automobile tag number. Parking stickers for automobiles previously registered for the 1972-73 academic year will be honored for the 1973 summer session. For automobiles operated by new students or non-registered cars operated by continuing students, there will be a registration fee (See page 5). Vehicles must be registered by the legal operator only.

For use of students, staff members, and employees, several parking lots are provided. Students may park registered cars in lots 1, 2, 3, 4, 7, and 11. All other lots are reserved for faculty and staff members. Visitor wells are reserved for visitors and guests between the hours of 8:00 a.m. and 5:00 p.m. University Regulations forbid the parking of cars on any campus road. These regulations are enforced by the Campus Office of Public Safety.

LIBRARIES

Libraries of the University are the general University Library (the Theodore R. McKeldin Library), the Undergraduate Library, the Architecture Library, the Engineering and Physical Sciences Library, and the Chemistry Library. The libraries have a total book collection of over 1,100,000 cataloged volumes and currently receive more than 14,000 serials and newspapers. In addition, the libraries contain over 700,000 microtexts, over 200,000 U.S. government and United Nations documents, and thousands of phonograph records, maps, film strips, slides, and technical reports. Bibliographical facilities include card catalogs of the British Museum, Bibliotheque Nationale, and Library of Congress, trade bibliographies of foreign countries and special bibliographies of subject fields. Study carrels in the Theodore R. McKeldin Library are available to faculty members and graduate students whose study and research require these facilities. Lockers are available for assignment to graduate students. Facilities for reading microtext materials, for typing, and for copying are also provided. Interlibrary loan service is available.

RESEARCH FACILITIES

The research programs at the University derive their existence and vigor from a faculty comprised of internationally recognized scholars and scientists. It is an advantage for undergraduate students to be aware of the University's research facilities as they plan their program.

In addition to fine library resources and the usual laboratory facilities for undergraduate studies, the University has developed outstanding opportunities for research in the biological, physical, and social sciences. Among the exceptional facilities are the Institute for Child Study; the Natural Resources Institute; a Computer Science Center; a laboratory for basic behavioral research on animals; Van de Graaff accelerators; a training nuclear reactor; a full-scale, low-velocity wind tunnel; a psychopharmacology laboratory; and laboratory models for meteorological phenomena. Collaborative arrangements with many nearby government agencies permit qualified University students and faculty to utilize their research facilities. The University owns and operates the world's longest radio telescope, located in California. A 160 MeV cyclotron for research in nuclear studies is located on the College Park Campus.

Investigation in agriculture is an important aspect of University research. University farms total more than 2,000 acres. Breeding, selection in farm crops, and soil research are a part of the program. Work in these areas is augmented by X-ray equipment and an electron microscope.

OTHER AREA RESOURCES

The College Park Campus is in a region which is unusually rich in libraries, research facilities, museums, galleries and cultural centers as illustrated by the map.

You may attend the summer session as a Summer Only student and enroll in undergraduate courses for full academic credit if you meet the requirements for admission.

Please note that admission to summer sessions as a Summer Only student **does not** constitute admission to the University's fall or spring semester or to any degree granting division of the University. Academic credit earned while a Summer Only student may, however, be used toward an undergraduate degree at the College Park Campus if you are admitted at some later date to degree status.

Application forms for admission, readmission, or reinstatement may be obtained in person from the Office of Admissions or Summer Sessions Office on the Campus or by mail by using the tear-out post card at the back of this catalog.

If you are a new freshman student who wishes to attend the University of Maryland, College Park for the summer only	you are eligible for admission if you have a "C" average in academic courses in high school and rank in the upper half of your class or if your predicted grade point average is at least 1.75. New freshmen who are nonresidents will not be permitted to continue in the fall.
If you are a University College student	you need only present a letter of permission from your University College dean in order to register.

ACADEMIC INFORMATION

ACADEMIC CREDIT

The semester hour is the unit of credit. During the summer session a typical 3 credit hour course meets five times a week for six weeks and requires daily preparation. Each class period is 80 minutes in length.

Students who are matriculated as candidates for degrees will be given credit toward the appropriate degree for satisfactory completion of courses. All courses offered in Summer Sessions are applicable toward the appropriate degree provided they are included in the student's program as planned with an advisor.

All students enrolled for credit will receive an official grade for each course.

MARKING SYSTEM

The following symbols are used for marks: A, B, C, and D—passing; F—Failure; I—Incomplete. For undergraduate students the mark A denotes superior scholarship; B good scholarship; C fair scholarship; and D passing scholarship.

The mark of "I" (incomplete) is exceptional. Courses may be taken on a pass/fail basis.

For graduate students the following symbols are used: A, B, and C constitute superior to passing scholarship. Grades of D and F reflect failing scholarship and must be repeated. The pass/fail option is not available to graduate students.

PASS-FAIL OPTION

Students who have earned at least 30 semester hours of credit (15 of which must have been earned at the University of Maryland) and a cumulative grade-point average of 2.00 may take, as a free elective, one course designated P-F on a Pass-Fail basis. Students not fully matriculated in degree programs may not use this option. A complete description of the Pass-Fail Option is available in the Consolidated Undergraduate Catalog.

DEFINITION OF FULL-TIME STATUS

For those students seeking University certification of full-time student status, the following definitions will be applied:

UNDERGRADUATES
Normally, enrollment in courses totaling six semester hours of academic credit will be defined as full-time enrollment for one summer session. Enrollment for six semester hours of academic credit in each of the two summer sessions will be defined as full-time enrollment for the summer. Four semester hours of academic credit in each six week session constitutes full-time enrollment for Veterans Administration purposes.

GRADUATES
Enrollment in academic credits totaling 24 graduate units will be defined as full-time enrollment for one summer session. Enrollment in academic credits totaling 24 graduate units in each of the two summer sessions will be defined as full-time enrollment for the summer.

Courses in the series: 400-499 carry 4 units/credit hour.
Courses in the series: 600-898 carry 6 units/credit hour.
Research courses: 799 and 899 carry 12 units/credit hour.

MAXIMUM LOAD

Normally, undergraduate students should not enroll for more than eight semester hours of academic credit in one summer session. Normally, graduate students should not enroll for more than six semester hours in one summer session. Variations on these normal maximum loads must be approved by the student's advisor and/or major department.

ADVANCED PLACEMENT PROGRAM

Students entering the University from secondary schools may obtain advanced placement and college credit on the basis of their performance in the College Board Advanced Placement examinations. These examinations are normally given to eligible high school seniors during the May preceding matriculation in college.

Questions about the program may be addressed to the Director of Admissions and Registrations. Additional information is presented in the consolidated catalog. For detailed information about examinations and procedures in taking them, write to the Director of Advanced Placement Program, College Entrance Examination Board, 475 Riverside Drive, New York, New York 10027.

CANDIDATES FOR DEGREES

All students who expect to complete requirements for degrees during the summer should make application for diplomas during summer registration or at the Registrations Office, North Administration Building. Such applications should be filed no later than July 19 for degrees to be awarded as of August 24, 1973.

GENERAL EDUCATION PROGRAM

A college education implies something more than technical training in a field of specialization. In order that each graduate may gain a liberal education as well as a specialized one, the University has established a General Education requirement. This requirement consists of 34 semester hours of credit in six areas: English (9 hours), fine arts or philosophy (3 hours), history (6 hours), mathematics (3 hours), science (7 hours), and social science (6 hours). There is a wide choice in specific courses which may be used to satisfy requirements in all of the six areas.

The General Education Program is designed to be spread out over the four years of college. In each of the areas, courses for which no previous college course work is prerequisite are available; at the same time, alternative advanced courses are available in most of the areas. Thus, a student may (within the limits of his particular curriculum) satisfy a General Education requirement with a variety of courses at different levels. Which courses he takes will depend on his ability—as determined by advanced credit, placement examination, department evaluation, and class standing—and upon his interests and needs.

It should be emphasized that the 34 semester hours of General Education courses constitute a minimum requirement, applicable to the undergraduate students in all of the colleges of the University of Maryland.

The University is also concerned with the physical fitness of each student. Therefore, all undergraduate men and women students registered for more than eight hours of credit are required to enroll in and successfully complete two prescribed courses in physical education. A health education course of two semester hours' credit is required of all undergraduate men and women. These courses must be taken by all students taking more than eight hours in a semester during their first year of attendance at the University whether they intend to graduate or not.

SUMMER GRADUATE WORK

Appropriate courses offered by the Summer Sessions may be counted toward the various doctroal and master's degree programs. A full year of residence or the equivalent is the minimum requirement for each degree. The bulletin of the Graduate School contains a full description of requirements and the degrees offered.

Special regulations governing graduate work in Education may be obtained from the College of Education. Students seeking the master's degree as a qualification for a certificate issued by the Maryland State Department of Education or any other certifying agency should consult the appropriate bulletin for specific requirements.

Any student desiring graduate credit toward a degree must be regularly matriculated and registered in the Graduate School before enrolling in a course. Any student desiring to enroll in a graduate level course (courses numbered 600 and above) but not currently admitted and in good standing in the Graduate School must be admitted to the Graduate School before enrolling. For complete details see the Admissions section of this catalog.
